

NEW!

Low Voltage (12v)

Design Pro LED

2-in-1 Accent Light

Designed for underwater use in ponds, fountains, and other water features

Can also be used out of water – ideal for wooden decks and overhangs

Shown to actual size

The Design Pro LED Advantage:

- ✓ 40,000 hours **
- ✓ More light output than a 10W MR16
- ✓ No penetrable points for water to get into the fixture
- ✓ Built from the “inside out” with double cavities completely filled with two types of premium encapsulate
- ✓ Rugged stainless steel housing – no corrosion or finish deterioration due to UV
- ✓ Tested safe for aquatic wildlife including plants and fish
- ✓ Small footprint – fixture can be tucked into very tight spaces. Integrated driver – no remote driver required
- ✓ Competitive price point
- ✓ ETL Listed to UL/ANSI 1838
- ✓ **15 Year Warranty** Complete fixture including housing, LEDs, drivers, and electronic components

15711SS 3.4W (60° Beam Spread)

Housing Stainless steel housing with integrated cowl

Light Source Integrated LED's and Driver
38.4 lumens per watt as measured at fixture
High CRI (mid 80s) and tight color consistency
3000K color temp (+220/-175)

Power Usage at 12V AC Input
VA: 4.9W(VA) 3.4W Watts

Wiring 25ft of usable #18-2, SPT-1-W leads

Optional Mounting Accessories
See 2nd page for more details

Dimensions
1.90" diameter, height is 1.275" at lowest point and 1.85" at highest

**Kichler's definition of 40,000 hours: Voluntarily following the accepted industry standard of L70, Kichler rates the entire fixture system at 40,000 hours; with engineered electronics that will last at least 40,000 hours, utilizing optical grade acrylic in its optic design to prevent yellowing, and finally utilizing a design that operates at the optimal temperature thresholds for the LED chips. The end result is a complete fixture that will maintain at least 70% of its original light output after 40,000 hours of operation.

NEW!

15578BK – standard heavy weighted 1 prong underwater light accessory for standard installations

15777SS – stainless steel easy mount bracket for use above ground on any surface – ideal for wood and masonry when used on decks, patios or overhangs

15776BK – unique heavy weighted 3 pronged under water accessory for 2 or 3 fixtures to give maximum flexibility

**Please see your
Authorized Distributor for
pricing and availability**

*NOTE: Kichler has developed a method fully encapsulating the LED and electronics, reducing the volume of the inside cavity to zero. This ensures that water cannot permeate the sealed surface and cause the LED or electronics to fail prematurely. Some bubbles may have developed in the curing process and are considered normal.
